Site Name Whiting Roll-up Door
Site OU Name Whiting Roll-up Door
Alias The Whiting Roll-up Door site is being combined with the Deer Valley site. This
Address 5015 North Highway 67
City Old Jamestown Area **Zip** 63034
County St. Louis

Directions to Site:
 Take Interstate 70 east towards St. Louis, Mo., turn north on Interstate 270. Travel I-270 until you reach Highway 67, then travel north(east). The Whiting site is on the north side of Hwy 67, just past Sinks Road.

Near Town Florissant

Site Description:
 The Whiting Roll-up Door site is located near Florissant, Missouri. The site is adjacent to the Deer Valley site. The Whiting site is three acres in size, but was once part of a larger parcel of 28 acres. The 28 acre property was once utilized by two drum reconditioning companies. The remaining 25 acres is owned by the Teamsters' Local No. 682 Health & Welfare Trust Fund. A recent geophysical survey of the Whiting site has revealed buried waste lagoons and buried metal objects (potential drums). The Whiting and Deer Valley sites will be combined into one site for further investigation. When the Deer Valley site was initially investigated, the Whiting property was not included, even though metal surveys at that time showed buried metal on the Whiting property. These two sites were part of the original 28 acres with the same history.
